

In the matter of State of Ohio, Ohio Department of Commerce, Division of Industrial Compliance v. Ohio Civil Service Employee's Association, Grievant Anthony Wiencek, Case #COM-2021-01527-07, it is the agreement of parties that Arbitrator Meeta Bass:

- 1) The Arbitrator shall retain jurisdiction over matters related to the potential reimbursement of Grievant for private insurance held during his length of termination. The parties understand that until a determination is made by the IRS whether or not Grievant was entitled to claim the healthcare subsidy for the tax years in question, there is insufficient evidence to calculate a final amount owed for healthcare reimbursement, if any, by the Arbitrator.
- 2) In order to prompt the Arbitrator to re-review this matter and make any determinations, the Grievant shall be required to provide the agency, the union, and the Arbitrator information proving his final cost of coverage via private insurance for the months in question. Such documentation shall include information regarding the final decision by the federal government, the Marketplace, and/or his private insurance regarding whether the Grievant will owe additional monies due to an order of repayment for all, or part, of Grievant's monthly subsidy towards the cost of his private insurance, or whether he will not owe such additional monies, a calculation of the final amount owed for the months in question, a determination of which months the Grievant had such coverage and/or to which his ordered repayment applies to, along with proof of Grievant's payment of the owed monies for each of the months in question.
